Dear Mr. Weisburg:

Thank you for your informative words over the telephone the other day on the Kennedy Assassination research.

Meanwhile, I have been in contact with other interested parties around the country and, to a man, they spoke most highly and appreciatively of your Trojan work.

Could you send a copy of your Whitewash IV to me at POST and bill us for all expenses involved? I am anxious to find out your conclusions in more detail.

With my regards,

John Bayliss
